PORTS CUSTOMERS ELIGIBLE FOR TAX CREDIT

Any customer – business or individual – of the North Carolina State Ports at Morehead City and Wilmington who is subject to North Carolina income taxes can qualify for a tax credit. Basically, a customer – new or existing – may take a credit on income taxes due to the state for any increased use of Ports facilities.

- This tax credit is **earned on cargo wharfage and handling fees** (in or out) charged by the North Carolina State Ports Authority.
- The credit is the **amount by which the current year's fees exceed the average** of the past three years.
- The credit applies directly to income taxes due to the state – up to **50 percent of the total tax liability** for each tax year. Any **unused credit may be carried forward** for the succeeding five years.
- The maximum cumulative credit that may be taken **may not exceed \$2 million**.

There are some limitations – for example, bulk cargo through the Port of Wilmington is excluded. Please call for all the details.
